PROFESSIONAL SUMMARY

Frontend Developer with **2+ years of hands-on experience** building and maintaining multi-role web applications using **React.js** and modern JavaScript. Experienced in **reusable component architecture**, responsive UI development, state management, **REST API integration**, and third-party integrations including payments, databases, and maps. Strong foundation in **React development**, **performance optimization**, and modern frontend practices.

TECHNICAL SKILLS

Languages & Core	JavaScript (ES6+), TypeScript, HTML5, CSS3
Frontend	React.js, Next.js, React Hooks, Redux, Redux Toolkit, Context API, React Router, Axios
UI & Styling	Tailwind CSS, shadcn/ui, Material UI (MUI), Ant Design, Responsive Design, Mobile-First Design
Data & APIs	RESTful APIs, CRUD Operations, Firebase / Firestore
Integrations	Stripe, Payment Gateway Integration, Google Maps API
Practices & Tools	Reusable Component Architecture, Component Optimization, Lazy Loading, Memoization, Git, GitHub, Vite, Vercel, Netlify

EXPERIENCE

Frontend Developer Intern → Frontend Developer May 2024 – Aug 2026
Zoiteckh Inc. | Kerala, Remote

- Promoted to permanent **Frontend Developer** on **May 2, 2025**, based on performance.
- Built and maintained **multi-role React.js applications** supporting user, admin, super admin, and delivery personnel workflows.
- Designed **reusable UI components** and modular frontend structures to improve consistency and development efficiency.
- Used **shadcn/ui**, **Material UI**, and **Ant Design** to build responsive and accessible interfaces.
- Integrated **Stripe payment gateways**, **Firebase Firestore**, and **Google Maps APIs** across multiple applications.
- Implemented **Redux**, **Redux Toolkit**, and **Context API** for application and component state management.
- Applied **lazy loading** and **memoization** for frontend performance optimization and collaborated using **Git and GitHub**.

SELECTED PROJECTS

Suite Booking Website	React.js / Firebase / Payment Gateway
Developed a client-facing suite booking platform with user and admin workflows, online payment integration, and booking management.	
Apartment Management System	React.js / Google Maps API / Payment Gateway
Built a multi-role property management platform supporting seller, renter, and admin workflows with maps and rental payments.	
Hotel & Restaurant Booking Platform	React.js / Stripe / Firebase
Developed suite and restaurant booking workflows with user/admin panels, dynamic menu management, and Stripe payments.	
E-Commerce Flower Application	React.js / Firebase / Google Maps API / Payment Gateway
Built multi-role e-commerce workflows with payment processing and Google Maps-based order tracking.	

EDUCATION

Bachelor of Computer Application (BCA) 2018 – 2021
Kerala University

CERTIFICATIONS

MERN Stack Web Development	2022 – 2023
Internship Certification	
Software Testing — Automation & Manual	2021
Selenium and Manual Testing
